

MULTI GAS DETECTOR

**SW-7500A**

SW-7500A can detect CO, H₂S, O₂, and Combustible Gas levels. A portable detector that makes it easier to measure in several places. Feature such as alarm and self calibration are also available on this series.

	SW-7500A
Measurable Gas	Combustible Gas, Oxygen, Carbon Monoxide, Hydrogen Sulfide
Accuracy	< 5% FS
Operating Principle	Electrochemical and Catalytic Combustion
Expected Lifespan	2 Years
Battery	Li-Ion Rechargeable (1800 mAh)
Alarm	Sound Alarm:85 dB /30 em Visual Alarm:High light emitting diode/vibration alarm LCD Display: When excess the set limit or When Low battery power
