Industrial Humidifier
Model: ST-MC05

Product Introduction:

Dehumidifier is able to reduce air humidity of the space, leaving people to live and store goods in comfortable environment. Advantages of dehumidifier is nice appearance, compact structure, and easy operation. It is widely applied to research and medical products, commodity storage, underground project, kitchen, bathroom, archives, and warehouse for dehumidification.

Specifications :

Model	ST-MC05
Control method	APP / RS485 / Microcomputer Control Panel
Water adding method	Water tank/external water pipe
Negative ion purification	With
Timer switch	two-way timing
Wind speed	3 speed
Humidification	5 kg/hour
Tank capacity	57 L
Application area	10-80 m²
Circulation air volume	2,500 m³/h
Size	630 x 450 x 1,280 mm
Net weight	58 kg
Power supply	1PH/AC220V/50HZ
Rated power	180W
Humidity range	RH30-70% (accuracy difference ±5%)
Way of moving	With universal wheels, it can move freely
