

Drain sensor

DBS1006 Series

High-reliability level sensor detects the entry of drainage into the pneumatic circuit.

- Port size: G1/2"

Specifications

Descriptions		DBS1006-15-AC200V
Port size	Drain inlet	G1/2"
	Drain outlet	G1/4"
Working conditions	Working fluid	Drain contained in compressed air
	Ambient temperature °C	1 to 60
	Working pressure MPa	0 to 1.6
Electro specs	Power supply	Single phase 200 VAC 50/60 Hz
	Max. power consumption	2.0 VA
Alarm contact capacity		<250 VAC/<0.5A, >12 VDC/>50 mA
Degree of protection		IP65
Weight	kg	0.65

Applications

Dimensions

- DBS1006-15
