

APM ASP SERIES PRESSBRAKES

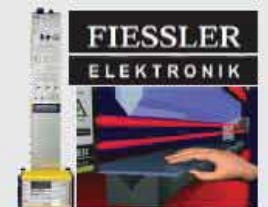

About our ASP & ACP series pressbrakes...

Our Conventional ACP and synchro ASP series pressbrakes offering to our customers a solid engineered, high quality and most of all an economical affordable pressbrake. The all-welded interlocked construction makes the machine virtually indestructible. To offer for our customers the best long-life performance the frame block included beam and backgauge arm are tempered. Our ACP and ASP pressbrakes can easily be adapted to the specific needs of our customer offering a wide range of tooling and backgauges.

APM Synchronized pressbrakes

- Full CNC controlled X, Y1, Y2 axis
- Schneider electrical components
- Schneider Lexium high performance servo
- Heidenhain optical measurement
- DELEM DA-52 in standard
- Hoerbiger compact hydraulic block
- Parker seals hoses and fitting
- High accurate backgauge
- Depth axis accuracy of 0.01mm
- Fast, stable and accurate operation

Fessler CE security device ready

■ Full range of Delem controllers available, direct in stock...
