

NT 75/2 Tact² Me

The Kärcher Tact² systems are ever popular as specialist systems and as all-rounders thanks to their high level of mobility and excellent performance, their solid construction and their wide range of practical design features. The NT 75/2 Tact² Me is supplied with the entire anti-static package as standard. The system tackles even large amounts of fine dust.

1 Easy to transport

- Adjustable push handle and large wheels make transport easy even on uneven surfaces.

2 Intelligent accessory storage

- For example, the floor nozzle can be quickly fixed any way round.

3 Automatic Filter Cleaning System Tact²

- The flat pleated filter can be removed from the clean side; it is divided into two halves, which are cleaned alternately by targeted blasts of air.
- Fine dusts cannot block the filter. A constant high air flow is maintained.

4 Secure and close to hand

- Tools can be stored in the on-board practical storage area, including small parts and bottles.

NT 75/2 Tact² Me

- Automatic Filter Cleaning System Tact²
- Anti-static system
- On-board storage on the casing head
