

NEW!

NEW! Bosch Carbide Multi Wheel cutting disc is designed to easily cut all kinds of wood, wood with nails and concrete residues, plastic, plaster board and fiber glass.

BOSCH

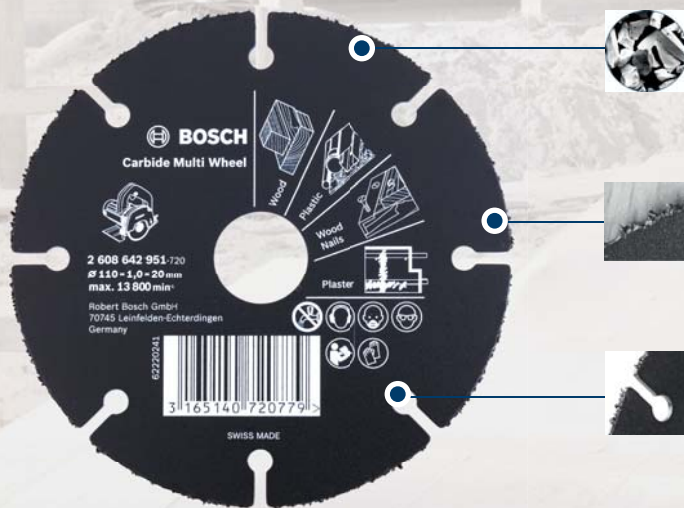

2 Invented for life

One solution for multiple needs

Bosch Carbide Multi Wheel is an innovative and unique product which is designed to easily cut all kinds of wood, wood with nails and concrete residues, plastic, plaster board and fiber glass.

Bosch Carbide Multi Wheel uses fine carbide grits which are laser melted to the steel body. The unique combination of high quality materials greatly enhances user safety. This disc is not only designed for quickly cutting through wood, but also for quickly cutting through many other construction materials. Efficiency is increased by removing the need to change blades.

Tungsten carbide grit

- ▶ Selected grit quality and size ensure a fast cut, long lifetime and multi-application use

Laster melting process

- ▶ High bonding strength between steel and tungsten carbide grit ensure a durable and safe application

Blade geonetry

- ▶ Thin body design and expansion slots give a quick cutting speed, and help avoid blade deformation

Construction timber	Hard / softwood, coarse rip and cross cut	Wood core plywood	Construction timber with nails and concrete residues	Chipboard, raw	Fiber materials, MDF	Laminate, parquet	Epoxy, Fiber glass	Plastic	Plasterboard 8 - 100 mm

Part number	Disc diameter (mm)	Bore diameter (mm)	Packaging type	Pack quantity (pieces)	Minimum order quantity (pieces)*	Barcode 31651407 ...	Power Tool machine
2608642951	110	20	bulk shrinked	100	100	20779	Marble cutter
2608642952	110	20/16	Clamshell	1	1	20786	Marble cutter/ Angle grinder
2608643066	110	20/16	bulk shrinked	1	1	44348	Marble cutter/ Angle grinder

* The minimum order quantity is a fixed quantity of pieces. Orders are carried out only in multiples of the multiples of the minium order quantity.
