

# G02

## Germicidal Light Ventilator

### Instructions

### Description

1. Function: Sterilization and Fresh air;
2. Power Input: AC200-240V/AC100-240V 50/60Hz;
3. Outside Materials: ABS body + PC diffuser plate;
4. Inside Materials: PMMA plate + LEDs + Centrifugal Industrial Fan;
5. Size: 598\*598\*120mm;
6. White Lighting: 3000K-6500K (full lighting wavelength);
7. Refresh and clean air: so Formaldehyde and TVOC can be absorbed by fans and cleaned by layers;
8. Installation accessory: Screws directly, there are holes on base.

### Parameters

Light Size	598*598*120mm	
Total watt	64W	
Watt details	LightingWatt	36W
	Centrifugal Industrial Fan Watt	28W
Sound Intensity	40db for 1800rpm	
	60db for 3000rpm	
Lighting Angle	120° for options	
CRI	Ra>80 / Ra>90 for optional	
Color Temperature	3000 - 6500K for options, full light wavelength	
Voltage Input	AC200 -240/100 -240V, 50~60Hz
