

LECTRO KLEEN (NON-FLAMMABLE)

Spanjaard Lectro-Kleen (Non-flammable) is a precision contact cleaner for use in industry, the office and home. It provides a convenient method of cleaning electronic and electrical equipment.

Caution: Compatibility with plastics and rubbers must be checked before use.

ABS, Polystyrene, Polymethyl methacrylate (PMMA) and some Nylons are not compatible with **Spanjaard Lectro-Kleen (Non-Flammable)**.

APPLICATIONS

Spanjaard Lectro-Kleen (Non-Flammable) with selected solvent of the highest purity, is especially suited for cleaning electric/electronic components.

To function efficiently, electronic equipment must be absolutely clean. The presence of minute amounts of contamination on switches, controls, relays, etc., causes a build up of resistance, which interferes with the flow of current.

For Use In:

- **Electronics:** Computers PC Boards, Relays.
- **Electrical:** Switches, Electro-mechanical Devices.
- **Telecommunications:** TV, Transceivers, Connectors.
- **Avionics:** Radar, Navigational Equipment.
- **Office:** Telephone, Calculators, Typewriters, Cash Registers.

Spanjaard Lectro-Kleen (Non-Flammable) is non-flammable, non-toxic, non-conductive and can be sprayed onto live equipment. It dries without leaving any film or residue.

Spanjaard Lectro-Kleen (Non-Flammable) reduces costs because components can be cleaned in situ without dismantling. It eliminates damage due to hand cleaning.

Found to be an excellent cleaner of lime and dirt on PC Boards in steel plants.

APPLICATION INSTRUCTIONS

See 'Caution' on compatibility in second paragraph. Given the enormous range of plastics and elastomers-tests should always be done to check compatibility before use.

The components to be cleaned are sprayed directly with **Spanjaard Lectro-Kleen (Non-Flammable)**. The solvent dissolves grease and loosens dirt, which is then flushed away by the spray. The extension nozzle with powerful aerosol spray allows it to be directed exactly to where it is needed, so that there is no excessive waste.

TYPICAL PROPERTIES

Colour	Clear
Density, g/ml	1,29
Flash Point, °C	None
Di-electric Strength, Kv	25

HANDLING AND STORAGE

Caution: Store indoors. Pressurised container. Protect from sunlight and do not expose to temperatures exceeding 50°C. Do not pierce or burn, even after use. 10% by mass of contents are flammable. Keep out of reach of children.

PACKAGING

350ml aerosol.
20l Drums

CP/mg/Lectro-Kleen (Non-flammable) – July 2017

CP/mg/Lectro-Kleen (Non-flammable) – June 2016

**Certified as an
ISO 9001 Manufacturer
by the SABS**
