

UNIVERSAL METAL PROTECTOR

Spanjaard Universal Metal Protector is a clear drying, anti-corrosive film for all metal surfaces. The protective film protects and seals buzz-bars and electrical equipment. Available in an easy to apply, ozone friendly aerosol.

APPLICATIONS

Spanjaard Universal Metal Protector protects all metal surfaces against corrosion. The powerful spray will reach seams and crevices exposed to corrosion, giving a hard, transparent coating. Suitable for coating PC boards in computers and electronic equipment. Used as an insulating varnish on low KV coils. For fishing reels and other boating applications. Protects battery terminals and cradle. Ideal for aluminium, brass, copper and silver surfaces -tarnishing will no longer occur. Suitable for home, car and industrial use.

APPLICATION INSTRUCTIONS

First remove any rust or tarnish. Surfaces must be clean and free from oily deposits. Spray the cleaned surfaces evenly from a distance of 30 - 40 cm and allow to dry. The initial cloudiness will disappear when the coating is dry. **Spanjaard Universal Metal Protector** can easily be removed with paint remover.

TYPICAL PROPERTIES

Density @ 20°C, g/m ^l	0,84
Appearance	Clear/Colourless
Flammability	Highly Flammable
Flash Point (°C)	-19
Boiling Point (°C)	55
Solids Content (%)	10
Solubility in water	Not miscible

HANDLING AND STORAGE

Highly flammable liquid. Do not spray on a naked flame or any incandescent material. Keep out of reach of children. Pressurised container. Protect from sunlight and do not expose to temperatures exceeding 50°C. Do not pierce or burn, even after use. Store indoors.

PACKAGING

300m^l/210g Aerosol Can.
