SPANJAARD

DATA SHEET

Product Description:

Spanjaard Synthetic Chain Lube WR (Food Grade) is a PAG-based chain lubricant for lubrication and protection of chain systems, specifically where food safety is a concern. The water-resistant formulation provides an adhesive, long-lasting protective lubricant film. Ideally suited for use on food conveyors where frequent wash downs may be required as well as applications where chains are subjected to wet conditions.

Applications:

Spanjaard Synthetic Chain Lube WR (Food Grade) is specifically formulated for use in the food processing industry where incidental food contact may occur. All raw materials used in the manufacture of the product comply with FDA section 21 CFR 178.3570. and is registered with the NSF as a category H1 lubricant. **Spanjaard Synthetic Chain Lube WR (Food Grade)** may also be used in packaging, pharmaceutical and other cleanroom environments. The product is Halaal and Kosher certified.

- Excellent anti-wear, extreme-pressure and anti-corrosion properties.
- Water-resistant formulation for use in wet/damp conditions.
- Formulated to keep chain and drive systems operating smoothly.
- 360° valve technology allows spraying at all angles including upside down.

Directions for use:

Shake well before use. Clean area to be sprayed of all dirt and contaminants before use. Apply in short bursts from a distance of 15-25cm away onto the area to be treated. Wipe away any excess with a cloth. Reapply as required.

SYNTHETIC CHAIN LUBE WR

Typical Properties:

Colour	Colourless to pale yellow
Density, g/cm ³	0,94
Base Fluid viscosity (40°C), cSt	220
Working Temperature, °C	-20 to 180

Health and Safety:

The product Material Safety Data Sheet is available upon request and must be read and understood before use.

Packaging:

400ml Aerosol (Product Code: 50500201) (2 x 6 Shrink Packs/Carton).
