

06D/E/CC VALVE PLATES/GASKETS

06D COMPRESSORS

4/1/2011

06DA,DM,DS, DX	Valve plate Kit	Valve plate Gasket (note 1)	Head Gasket (note 1)
Suction Cut-Off	06DA660152	05DA500153	05GA502223
Bypass	06DA660151	05DA500153	05GA502183
Center Head	06DA660152	05DA500153	05GA502173
Side Head	06DA660152	**05DA500153	05GA502213
06DR	Valve plate Kit	Valve Plate Gasket	Head Gasket
Suction Cut-Off	06DA660151	05DA500153	05GA502223
Center Head	06DA660151	05DA500153	05GA502173
Side Head	06DA660151	**05DA500153	05GA502213

** Use these gaskets for current high efficiency model 06DR013/06DM313 compressors w/ 2" cylinder bore, indicated by number "3" in fourth position from end of model number. For older compressors, 1.81" bore use 6D40-1073 valve plate gasket.

**Use these gaskets for current high efficiency model 06DR316/06DM316 compressor indicated by number "3" in fourth position from end of model number. Use special blank-off gasket 06DA502923 on old standard models with suction valve at oil pump end and using high efficiency valve plates.
