UV Curing

# Liquid State Acrylic Glue

透光好 *Good light transmission*  
 抗开裂 *Anti Cracking*  
 耐变黄 *Anti-Yellowing*

抗氧化 *Oxidation Resistance*  
 气味小 *Less Odor*  
 长储存 *Long Storage Time*

省电 *Power Saving*  
 省时 *Time Saving*  
 省力 *Labour Saving*

## Advantages of Liquid State Acrylic Gule

- ~ Both side same smooth & good translucency
- ~ High adhesion on Metal & Non Metal material
- ~ Less curing time & high efficiency
- ~ Long storage time, more then 6 month (under 50deg)

Appearance	Viscosity (cps)	Curing Condition	Hardness (Shore D)	Heat Resistance	Density (g/cm3)
White / Colorless	15000-20000	UV / 60 minute	75	-30 to 100 deg	1.012

## Proportion of color paste for colourless material

Colour	Red	Yellow	Blue	Green
Proportion (%)	0.15	0.15	0.2	0.15
Curing Time (minute)	90	120	60	60

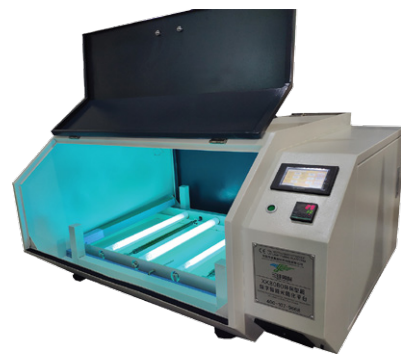

## Advantages of XK Pouring Machine

- ~ Gear pump for high efficiency pouring, up tp 15g/s
- ~ Easy automatic cleaning function to prevent blockages
- ~ Fully intelligent operation system, up to 15 settings
- ~ Fully enclosed barrel, smell less while pouring

Specification	XK-8080
Glass Area	800mm X 800mm
Working Area	800mm X 800mm
Air Pressure	0.5-0.7Mpa
Voltage	220~240, 50/60HZ
Power	1.5Kw
Dimension	950mm (L) x 1180mm (W) x 600mm (H)
Weight	133Kg
