Smoke Purifier

High-efficiency smoke purifier

High efficiency smoke purifier is designed for laser cutting machine and marking machine, can effectively remove smoke, dust, odor and toxic and harmful gases are generated when carving, cutting acrylic/rubber plate/rubber plate.

Smoke -96%

Odor -90%

Dust -99.9%

- Intelligent control: *Touch screen operation, in line with CE electrical safety standards*
- Convenient maintenance: *Modular design, easy to clean*
- Electric field monitoring: *Real-time monitoring of high voltage electric field status*
- Operation guarantee: *Real-time monitoring of the fan to ensure stable operation*
- Silent design: *Built-in noise-canceling fan, saving space and low noise*
- Efficient purification: *Eight-stage filtration system, complete purification of pollutants*
- Intelligent reminder: *Preset maintenance time, automatic prompt when due*

Dust Removal Module

Molecular Sieve

Specification

Rated Power	2300W
Purification Efficiency	Smoke~96% Odor~90% Dust~99.9%
Noise	≤60±5dB
Inlet/Outlet Size	150/200
Processing Air Volume	1500m ³ /h
Voltage	220V~240V (50/60Hz)
Weight	165Kg
Machine Size	560(L)mmx680mm(W)x1550mm(H)
