

NO-FLY-ZONE GLUE BOARD FLYCATCHER THAT FITS IN YOUR ATMOSPHERE

NO-FLY-ZONE Glue Board Fly Catcher

NO-FLY-ZONE Flycatcher is the most versatile and affordable glueboard flycatcher available for use across a range of residential and commercial applications. The glue area is equidistant from the UV tubes, maximising the useful glue area. It is available in many colours to suit your wall and deco.

The No Fly Zone unit is quick and easy to service; the swing down front cover provides complete access to the UV tubes, while the glueboard can be easily changed from the back of the unit. The range uses high efficacy 15W UV tubes for reduced inventory requirements.
