

GRILL WITH LAVA ROCK

ITEM CODE : 180931

WHY YOU NEED LAVA ROCK ?

HEAT DISTRIBUTION

They serve as a barrier between the heat source (burners) and the cooking surface, distributing heat evenly across the grill. This helps prevent hot spots and ensures more consistent cooking.

FLAVOR ENHANCEMENT

As the drippings from the food hit the hot lava rocks, they vaporize and create smoke, which can impart a smoky flavor to the food being grilled.

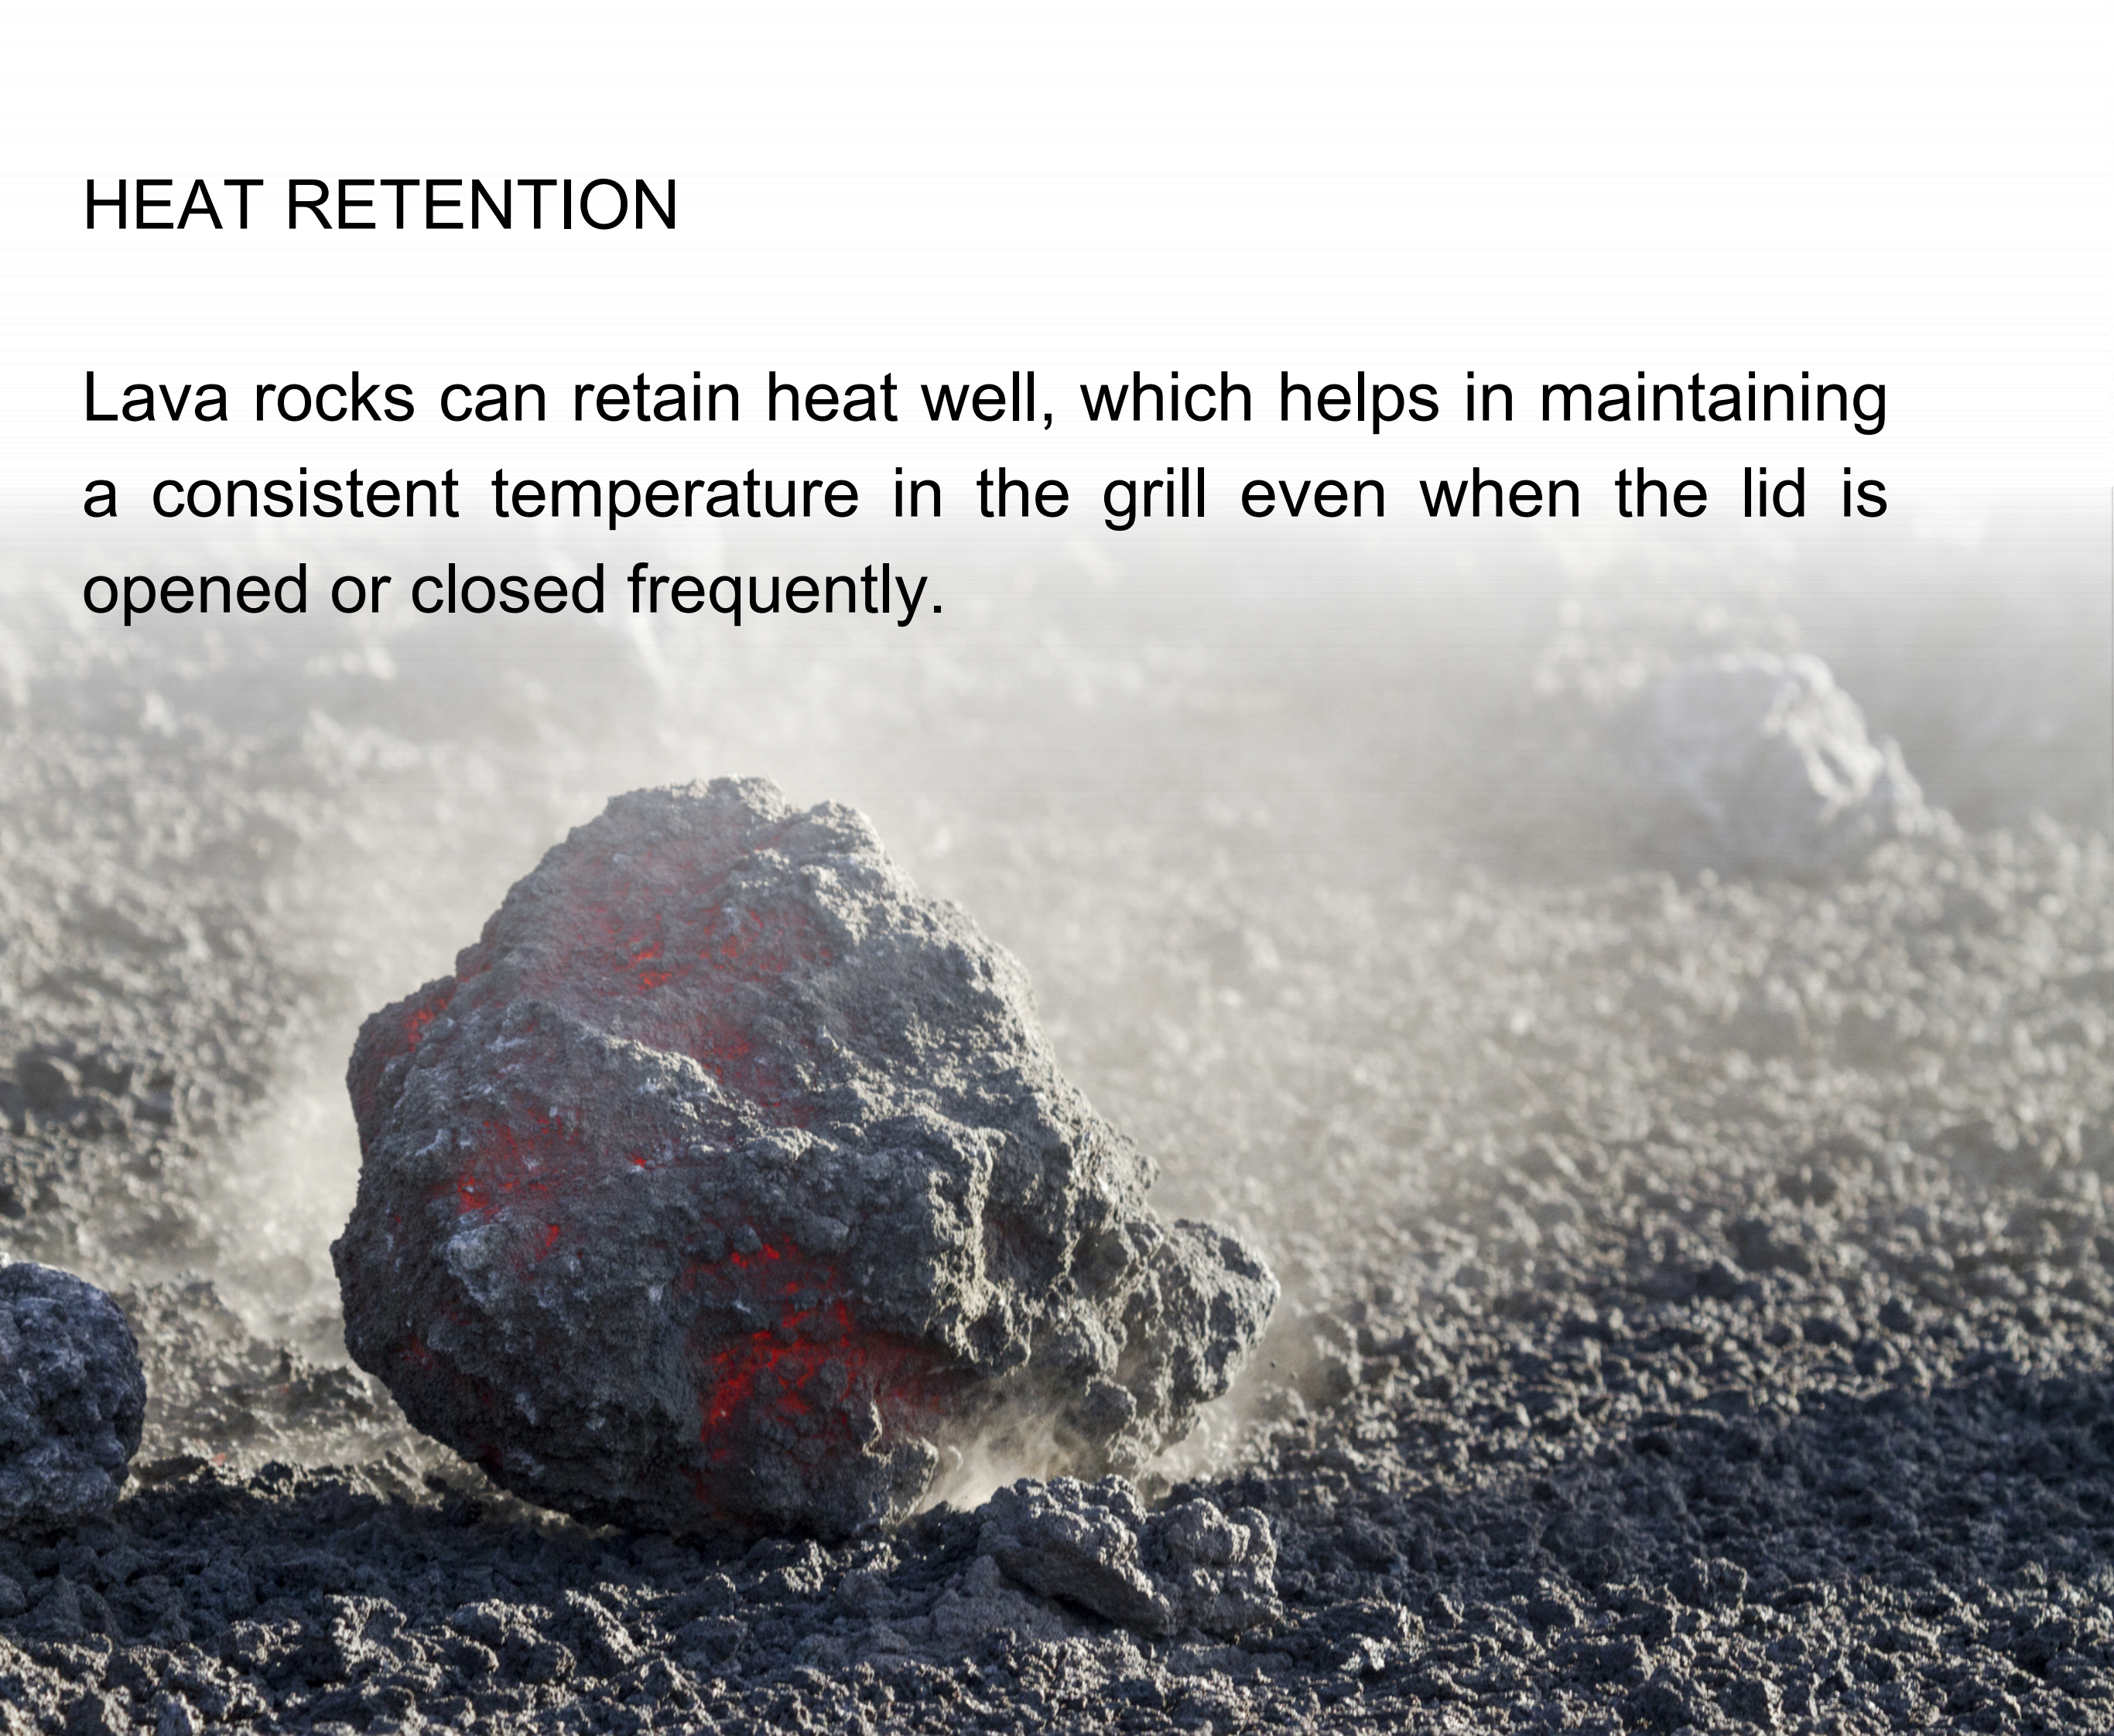

REDUCED FLARE-UPS

Lava rocks can absorb and distribute excess grease or drippings from food, reducing flare-ups and the risk of charring or burning your food.

HEAT RETENTION

Lava rocks can retain heat well, which helps in maintaining a consistent temperature in the grill even when the lid is opened or closed frequently.

LONGEVITY

They are durable and can last a long time if properly cared for, making them a cost-effective option for enhancing your BBQ experience.

GRILL WITH

**GAS COMBINATION LAVA
ROCK GRILL GRIDDLE (GCLG)**

LAVA ROCK GRILL GLR-3

RIGHT

EQUIPMENT

GAS COMBINATION LAVA ROCK GRILL GRIDDLE (GCLG)

- Stainless Steel Body
- Designed for high productivity, outstanding performance and even heat distribution
- Independently controlled cooking zone for economy during quiet periods
- Large drain hole beside cooking surface for ease of operation and cleaning
- The heavy castings retain heat to minimize recovery times during peak periods
- Free standing & table top designed
- Dim : 608(L) x 732(W) x 850(H) mm
