

Bluguard L900

L series

anytime, anywhere...it's all in your hand

Your Reliable

SECURITY SYSTEM

BLUGUARD L900

Bluguard L900 is streamlining a platform for intelligent security system, permitting all around 24/7 protections to your family. It embedded the tone feedback, call in/out functions, and home automation control under single coherent system.

It offers the expansion room for optional module : GSM, Home Automation and wireless solution as ease. Hence, customer will enjoy a low start up cost.

The key functions are:-

- **9 zones system**
- **Auto arm/disarm timers**
Permitting the arm/disarm function at the preset time.
- **Monitoring of Telephony line (with GSM)**
Provide the warning upon the telephony line is being tampered.
- **CMS reporting (Contact ID)**
Provide the connection to control monitoring station at ease.
- **Control via local keypad or remote mobiles**
Provide the convenience to user anytime and anywhere.
- **Optional upgrades to 8 Automation points for lighting, air-cond or home appliances**
Permitting an intelligent home automated system, and thus users can turn on/off the appliances from anywhere.
- **Optional upgrades to GSM for SMS reporting**
Allow the reporting via GSM line and SMS reporting on power failure, arm/disarm, battery low, system trouble and alarm.
