

# JP200

Water Purifier

**JOVEN**  
since 1983  
Bringing Innovation Home™

Crystal Clear, Tastier Water.  
For a Healthier Lifestyle.

**99.9%**  
CHLORINE  
REMOVAL

# Every household deserves clean and healthier purified water with the Joven JP200 Water Purifier.

The result of extensive research and development, the JP200 fits practically and aesthetically into every home. The super-efficient patent-pending Purifier Cartridge has a 3-layer non-woven fabric filter and powdered activated carbon that removes \*99.9% chlorine, rust, turbidity, sediment and odour from tap water. Studies have shown that drinking clean water is essential for a healthy body. Chlorine in water will disrupt our digestive system as it increases body acidity levels and destroys the good bacteria in our gut. Therefore, having a water filter is essential to good health in every family. With all the efficiency of the water purifier, now all that you're left with is clean, purified, tastier water that retains its natural minerals - exactly as Nature intended.

## INNOVATIVE FEATURES

### ERGONOMIC DESIGN

- High-quality plastic
- Sleek
- Better durability
- Choice of White or Red colour
- Easy installation
- Patent-pending Purifier Cartridge
- 3-layer non-woven fabric filter
- Powdered activated carbon
- Stainless steel outlet pipe

Filtered

Unfiltered

## 2 FUNCTION SELECTOR VALVE

- Universal Tap Bush
- Female Thread Tap Bush M22
- Male Thread Tap Bush M24
- Simple Lever lets you choose between Filtered and Unfiltered mode
- Easy installation
- Convenience

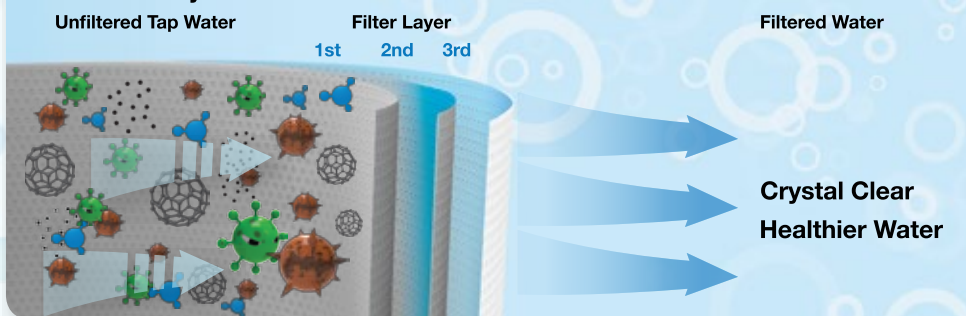

## It also has a 2 function Selector Valve so you can switch between Filtered or Unfiltered water

### JP200 Purifier Cartridge (Patent Pending)

- High efficiency 3-layer non-woven fabric filter and powdered activated carbon removes: chlorine, rust, turbidity, sediment and odour.
- Purifier Cartridge is required to be replaced periodically, when the water flow and taste is unsatisfactory.

## 3-layer non-woven fabric filter

- Activated Carbon
- Rust
- Sediment / Turbidity
- Chlorine
- Odour

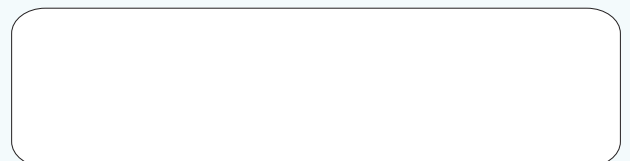

\*99.9% - Condition applies to New Cartridges and for water flow below 6 liter/min.

## SPECIFICATION

Purifier Cartridge Content	* 3-Layer Non-Woven Fabric Filter * Powdered Activated Carbon
Working Pressure	0.4 to 3.5 bar (6 to 52 psi) 6.0 l/min at 1.0 bar (15 psi)
Filtration Capability	Removes Odour, Chlorine, Sediment, Turbidity and Rust from Iron Water Pipes
Water Temperature	15°C to 30°C
Pressure Relief Valve	5.0 bar (75 psi)
Casing	ABS Plastic
Hose	Non-Toxic Food Grade Plastic
Dimensions	215 x 120 x 254 mm
Weight	1.0kg
