* Dimmable with dimmable LED driver LVED PRO 20/220-240/550 CS 1-10V

^ Product performance under drive current of 500mA

¹ All technical parameters apply to the complete lamp. Due to the complex manufacturing process of light emitting diodes, the specified typical values of the LED parameters merely represent purely statistical variables. They do not necessarily correspond to the actual technical parameters of each individual product, which can deviate from the typical value

² LED lamps can be operated with a wide variety of commercially-available dimmers; details and results of compatibility tests can be seen at www.ledvance.com/dim and in the additional technical product information sheets linked there

³ L70/B50

LEDVANCE is licensee of product trademark
