

## SBL SOLAR LED BATTEN LIGHT

### Specifications

|                       |                                |
|-----------------------|--------------------------------|
| Efficiency            | 160Lm/W                        |
| LED                   | 2835                           |
| Solar Panel           | Mono-Crystalline               |
| Battery               | LiFePO4                        |
| Cycle Durability      | 2000 Cycles                    |
| Charging time         | 6~8 Hours                      |
| Discharging time      | 20~24 Hours                    |
| CCT                   | 3000K / 4000K / 5000K / 6000K  |
| Beam Angle            | 120°                           |
| IP                    | IP65                           |
| Operating Temperature | -20°C ~ +60°C                  |
| Material              | Aluminium (panel)<br>PC (lamp) |

### Features:

- 180 ° adjustable lamp
- 150 ° adjustable solar panel
- Waterproof fog, anti-dust, anti-mosquito
- Power switch button, remote control, infrared sensor switch.
- One 5V USB charging output.

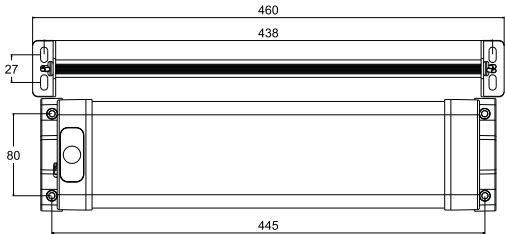

### Applications:

It is a perfect solution for many outdoor applications such as carports, bus shelters, warehouses, temporary shelters, outdoor kiosks, street kiosks, camping tents, boats or any remote locations where grid is a challenge.

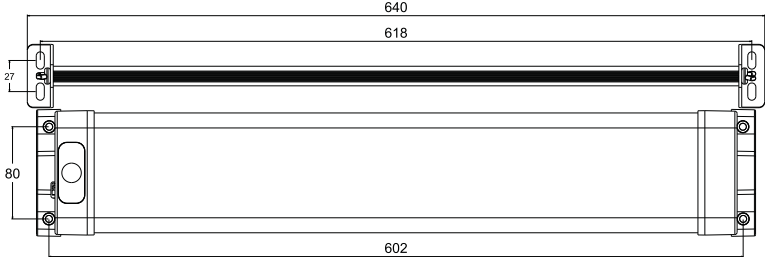

| Model       | Lumen  | Install Height | Dimension          | Solar Panel | Battery   |
|-------------|--------|----------------|--------------------|-------------|-----------|
| VSL-SBL-20W | 1000lm | 3~5m           | 445 x 120 x 120mm  | 9V 15W      | 6.4V 12AH |
| VSL-SBL-40W | 1500lm | 4~6m           | 625 x 120 x 120mm  | 9V 20W      | 6.4V 18AH |
| VSL-SBL-60W | 2000lm | 5~8m           | 805 x 120 x 120mm  | 9V 28W      | 6.4V 24AH |
| VSL-SBL-80W | 2500lm | 6~9m           | 1035 x 120 x 120mm | 9V 38W      | 6.4V 30AH |
