

Professional Insect Killer

2 x 10W

2 x 20W

- Effectively fight against insects, mosquito, flies, bugs, wasp, moth and more.
- The appearance of humanized design, aluminium alloy and the perfect combination between plastic shell, prevent rust, convenient and clean,
- Using special UV lamp to attract insects into the high voltage net and then electrocute them upon contact.
- Applicable to all kinds of families living environment, offices, shops, bars, café, restaurant, food industries, etc

Specification

2 x 10W

Material: Aluminium alloy + plastic

Charging voltage: 220~240V

Frequency: 50HZ

Grill voltage: 1500V

Consumption: 20W (2x10W UV lamp tube)

Effective area: 40square meters

Cable length: 1.1m

Product size: 38x10.5x29.5cm

2 x 20W

Material: Aluminium alloy + plastic

Charging voltage: 220~240V

Frequency: 50HZ

Grill voltage: 1500V

Consumption: 40W (2x20W UV lamp tube)

Effective area: 80square meters

Cable length: 1.1m

Product size : 64x6.3x24.5cm
