Company Background

HYGROW SDN. BHD. was established since 2001. The core business was to engage in sales & marketing, supports, distribution, and provide total lighting solutions for industrial & commercial needs.

We offer wide product assortment ranging from classic LED shop lights to innovative solar LED street lights. Every customer requirement is different that's why we won't believe in one size fits all approach. Our specialist develops unique solutions that can fulfill your specific business needs. We provide end-to-end services which mean our specialist will keep you update on every progress of the ongoing project.

Our specialist will visit your site, design the simulation, create a mock-up, install, and maintain your lighting systems. It is one of our kind methodology that proven us became one of the leading suppliers of LED lighting in Malaysia.

HYGROW is expanding its business regional into diverse industries, via various channel of network, flexible pricing policy & strategic partnership.

During the current Covid-19 pandemic, we launched a new essential product to our valued customers to cater to a wide spectrum of industries namely specialty sanitizer & marketing leading brand products.

VISION

Maximize customer's core value is our top priority.

MISSION

To provide customers with competitive products in performance and total ownership cost via best in class services and value added solutions.
