

# LS615II DOTS LASER (5D)

During the construction decoration, door & windows or facilities fitting applications, it will cost much time and energy to leveling, laying out and measuring. Everything will become very simple with self-leveling dot laser series products. You only need to switch on, the dot laser of 90° each other will project instantly, which will provide 90° horizontal, vertical three-dimensional reference plane and plumb up & down reference.

## Features

- 5 laser dots (front, left, right, plumb up and down dot)
- Self-leveling, warning when beyond self-leveling range
- Self-calibration function outside the housing
- Special wall mount could hang, bind and attach on the metal, and rotate & move freely

## Specifications

- Laser wavelength: 650nm
- Laser class: Class II/III
- Accuracy:  $\pm 0.2\text{mm/m}$
- Self-leveling range:  $\pm 4.5^\circ$
- Power: 3\* AA battery
- Size:  $\Phi 3 \frac{1}{8}'' \times 3 \frac{15}{16}''$  ( $\Phi 80 \times 100\text{mm}$ )
- Weight: 1.01lbs (0.46kg)

## Basic kit:

LS615II main unit, special mount, LS306 glass, LS307 target, 3\*AA battery, 4# hard carrying case

## Applications:
