

## Studded Rubber

Stud rubber design to be water proof and anti slip features , Stud rubber mat is uniquely designed as safety anti-slip floor mat. The well round studs able to trap dirt and dust exceptionally well concealing them in within the mat and not scattered out to the floor. durable, cost effective, easy maintenance, flexible indoor and outdoor use, good acupressure effect, chemically & oil resistance, floor protection against abrasion & damages.

### Properties:

- Manufactured from Natural / Synthetic Rubber
- Provides a Durable Attractive Hardwearing Floor Surface
- Applied by Adhesion to Floor
- Suitable Flooring for Industrial, Commercial and Leisure applications
- Designed to Protect Floor Surfaces
- Chemical, Cigarette Burn & Slip Resistant
- Stock Colours Black

### Applications

- Schools and Kindergartens
- Universities and other Education establishments
- Libraries and Museums
- Art galleries
- Cinemas and Theatres
- Shops and Retail spaces
- Airports and Train Stations
- Hospitals and other high traffic areas
- Office spaces

### Specification

Standard Size :	1.2m x 10m or 555mm x 555mm		
Standard Thickness :	4.5mm		
Standard Color :	Black		
Specification :	Test Method		
Specific Gravity	ASTM D792	Unit	Test Result
Hardness	ASTM D2240	g/cm3	1.35
Tensile Strength	JIS K6301	Shore A	65+-5
Elongation	JIS K6301	kgf/cm2	55
Tear Strength	ASTM D-412	%	200
Abrasion Resistance, 6 Lb/3300 RPM	ASTM D-1042	kgf/cm	30
