

NEXUS WIRELESS CALL SYSTEM

The spread of coronavirus has led to a significant surge in demand for medical ward services. In order to cope with bed short of the expected surge in corona patients, hospitals have already begun to step up and provide overflow bed capacity, and the call bell is an indispensable part of it. The *Nexus Call System* from Rondish may come in handy. It is a portable nurse call solution that *can be quickly deployed with mimnimum installation*. It's high flexibility making it a perfect choice for a surge in bedding needs during the coronavirus pandemic.

Product

WCP-21C Bedhead Call Point

Description

Wireless call point with both call and reset buttons, with RJ10 input for a patient handset, works as part of Protektor network

Features:

- Handshake signaling with Protektor / Nexus network
- Read-in to indication light
- Generate call, reset, emergency call and nurse presence
- Optional patient handset (as shown)
- Programmable to display variety of locations
- Low battery and automatic fault detection
- Changeable batteries
- Battery life: ~2 3 year, assumes 3-5 calls/day

Works with:

- Nexus Display Panel
- WLSMCL-01 Wireless Multicolored Light
- ZP-01 Zone Processor
- NEC-12 Patient Handset (shown in picture)

Product : WCP-21 Bathroom Call Point

Description

Wireless call point with call and reset buttons, waterproof to IP 65, and works as : part of a Protektor network

Features:

- Handshake signaling with Protektor network
- Read-in to indication light
- · Safe for use in toilet or shower area
- Normal call (red button) and Reset (green button)
- Optional pull cord (not shown)
- · Programmable to display variety of locations
- Waterproof to IP65
- Low battery and fault detection
- Changeable batteries
- · Battery life: 2-4 years, assumes 1 call/day

Works with:

- NDP-11 Nexus Display Panel
- WLSMCL-01 Wireless Multicolored Light
- ZP-01 Zone Protektor

Technical Specifications

Operating frequency: 866 or 922MHz			
Operating range:	200m (line of sight)		
Power supply:	2 x CR2477 lithium ion battery		
Dimensions:	8.5 x 8.5 x 6cm		
Housing material:	ABS		
Net weight:	130g		
Operating temp .:	5°C to 40°C		
Rel. humidity:	95%

Product **GP2009TR POCSAG Transmitter / Repeater** :

Description

POCSAG transmitter/repeater. Sends alarm details to wireless LED display : panel, dotmatrix display and/or data pager.

Features:

- Transmits alarm data to remote displays
- Simple software interface
- Adjustable data rate on transmission
- Can repeat signals to extend site coverage
- Wall or table mountable, adjustable antenna
- USB and RS232 ports

Works with:

- GP2015S wireless LED display panel
- GP2009N data pager •
- Protektor II Wireless System
- Nexus Wireless Call System
- SmartBeds Ward Management Platform

Technical Specifications

Operating frequency: 420 or 470MHz Operating range: Up to 2km Transmission Power: 2W max Power supply: 7-20Vdc Dimensions: 110 x 62 x 22mm

Standards		
EMC:		
Radio:		
Alarm:		

RoHS FCC

CE

Housing material:	Aluminum
Net weight:	230g
Operating temp.:	-10°C to 50°C
Rel. humidity:	<90%

Product : GP2015S Wireless LED Dotmatrix Display

Description Lightweight wireless LED dot matrix display for showing alarm type and location. : Works with Protektor II, Nexus and SmartBeds

Features:

- 2 x 16-digit dot matrix alphanumeric display
- Wall or ceiling mounted •
- Audible buzzer or voice alert
- Supports English, German, French, and Chinese
- 8 capcodes allows multiple zones in a facility •

Works with:

- **GP2009TR** transmitter
- Protektor II Wireless System
- Nexus Wireless Call System
