

FUEL INJECTOR CLEANER

POWER UP FUEL INJECTOR CLEANER is formulated with **Mineral hydrocarbon B, Alcohol X Complex and Synthetic Hydrocarbon** to clean carburetor, valves and fuel injection system.

It also restores smooth idling and prevents stalling by dissolving harmful injector and fuel system deposits. It improves gas mileage by keeping carburetor intakes valves and manifolds clean. It will fight rust and corrosion in gas tank and fuel lines. It dissolves carbon, sludge, wax, sediments & water from the fuel system such as injector nozzles, fuel pumps, fuel lines, fuel tanks & throttle body when it is applied as recommended. It helps to clean injector nozzles & combustion chamber.

Available in 236ml

DIRECTIONS

Fill in the entire contents into fuel tank (treats up to 80 litres/21 gallons). Use every 5000 km/4100 miles, or whenever clogged injectors are robbing your vehicles performance.

For improve engine performance, use before each oil change.

BENEFITS:

- Cleans valves, injectors & carburetors
- Improves acceleration
- Eliminates hard starting
- Improves fuel economy
- Increases engine power
- Reduces emission
- Prolongs engine life
- Makes engine run smoother
- Increases engine performance
- Compatible with all gasoline, Gasohol and diesel fuels
- Will not harm catalytic converter or oxygen sensors

Characteristics Method	Unit	Method	TYPICAL RESULTS
			INJECTOR CLEANER
Solubility In Petrol / Gasoline & Diesel			Soluble
Solubility In Water			Non Soluble
Kinematic Viscosity @ 40°C	cSt	ASTM D445	6.9 – 11.9
Specific Gravity @ 15°C	kg/m ³	ASTM D4052	0.75 – 0.83
pH			6
Flash Point	°C	ASTM D93	65.0
Temperature Range Of Application	°C		-40 to +40
Chemical Stability			Stable In Ambient Temperature
Hazardous Polynerization			Not Occur
Smell			Petroleum Solvent Smell
Color		ASTM D1500	Light Yellow
