

Lubrication Design Solutions

SUMICO

From oils to greases to dry lubricants

Synthetic Grease

Sumitec

Superior Stability to Plastic

Superior Lubricity

Usable over a wide temperature range

Silicone-free

For Plastic Lubrication

For Long-Life Lubrication

For Extreme Low-Temperature Lubrication

Chemical ambient atmosphere

Particularly Suited to Lubrication of Plastic Parts in Precision Equipment

Lubrication Design Solutions

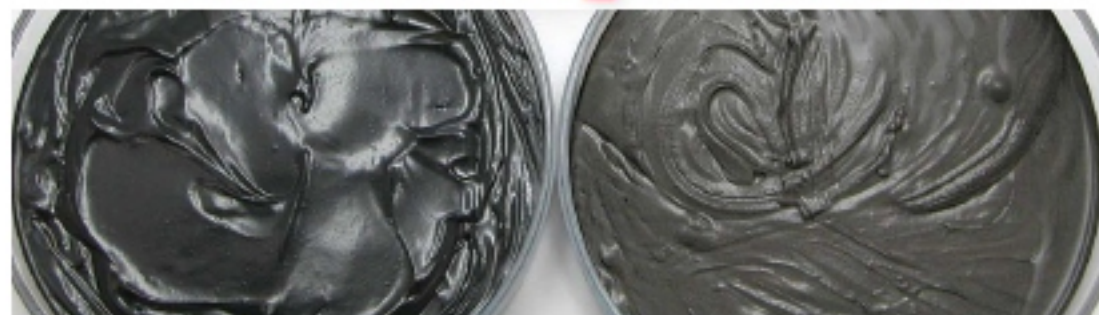

SUMICO

From oils to greases to dry lubricants

Lithium Complex Soap Grease

Sumiplex

Heat-resistant greases with little tendency to solidify at high temperatures

Excellent Water-Resistance

Excellent Shear Stability

For High-Temperature Environments

For Water-Exposed Locations

For Heavy Loads

For On-Site Standardization of Lubricants

Heat-Resistant, Water-Resistant and Heavy-Duty Long-Life Greases
