

Digital Security
for your *peacefulness.*

Designed by **ViVOS**[®]

VG6 is a highly sophisticated home security alarm system uses advanced engineering technology. ViVOS innovate new technique, which has high integration, good reliability, advanced technology, mightiness function and "EZ-P" (Eazy Programming) technique.

Technical Information

Power Supply	: AC input (16.5 VAC, 3A Customized Transformer by ViVOS)
Standby Current	: Max (90mA)
Backup Battery	: 12Vdc, 7AH SLA Rechargeable Battery
Strobe Light Output	: Max 1A (12Vdc)
Siren Output	: Max 2A (12Vdc)
LCD Display	: 16x2 character LCD display
Keypad Dimensions	: (L) 125mm x (W) 100mm x (H) 28.5mm
Metal Casing	: (L) 290mm x (W) 280mm x (D) 76mm
System Reset Button	: Mainboard System Restart
System Indicator Output	: Max 100mA (12Vdc)
Dedicated Input	: Remote Arming and Disarming
Communication Format	: Digital ViVOS proprietary and contact ID (CMS).

“EZ-P” ALARM SYSTEM by ViVOS

“EZ-P” Setup

Designed for all generation. With “EZ-P” (Eazy-Programming) technique, everyone can configure the system during start-up without hassle.

Minimize False Alarm

ViVOS is engineered to minimize false alarm by implementing sensitivity adjustment such as zone response and smart zone features.

Module Expandable

ViVOS-VG6 is simple expansion module installation friendly & effortless. Changing of alarm panels or hardware for expansion module is optional.

PRODUCT FEATURES

- 1) “EZ-P” Setup. Only required 4 set of data during system startup, i.e.:
 - i. Master Code
 - ii. User 1 x Telephone Number
 - iii. System Clock
 - iv. System Date
- 2) Auto detecting keypad & module during startup
- 3) Duress User Identification for User 1 ~ User 4
- 4) 50 Events Log with Time, Date, Month and Year
- 5) Guide by tone feedback
- 6) 2 x Partition
- 7) Access code: 1 Master Code and 5 User Code
- 8) Maximum up to 4 keypad
- 9) Fully programmable 6 zones with EOL on board.
- 10) 2 x CMS Reporting Numbers & 4 x Personal Call Reporting Numbers
- 11) 6 x Arm Mode: Away, Stay, Force, Auto Timer, Remote and Telephony
- 12) Auto detection of system failed status
- 13) RS485 communication to support longer distance
- 14) AC and communication LED status indicator
