

Polishing Machine for Improved Product Quality

RICE POLISHING MACHINE

KB40G

KB40G-TA

SATAKE CORPORATION

The Satake Rice Polishing Machine cleans the surface of rice, significantly enhancing the quality of finished products. The machine has achieved a high reputation in many countries for its high performance and for the innovations which have been incorporated over the past 20 years.

FEATURES:

1. Improves the appearance of rice:

The surface of milled rice becomes smooth and clean, leading to enhanced commercial value.

2. Improves the quality of rice:

The residual bran absorbs moisture and helps microorganisms to develop. By removing this residual bran, The Satake KB gives rice a longer shelf life.

3. Gentle polishing:

The Satake KB is designed to minimize breakage of rice kernels. Milling rolls and screens are chosen to best fit the material.

4. Wide applications:

Combination with other Satake Milling Equipment enables application to wide varieties of rice, and even to other grains such as maize.

RICE POLISHING MACHINE

Specifications

Model	KB40G
Required Power (kW)	22 or 30 (6P)
Input Capacity (t/hr)	3.0 ~ 4.0

Dimensions

Model	W(mm)	L(mm)	H(mm)	Weight (kg)	Volume (m³)
KB40G	540	2,150	1,800	1,040 *	4.5 **

* Approximate Shipping Weight (w machine stand, w/o motor)

**Approximate Shipping Volume

Other Applications

KB placed after Satake Rice Whitener (VTA,VBF) improves the milling yield for tender grains like Basmati.

(The number and combination of machines are dependent on materials.)

All Satake products are the subject of continuous development and, as a result, their specification may change and differ in detail from those shown.

SATAKE CORPORATION is registered with ISO9001 standards for quality management systems and ISO14001 standards for environmental management systems.
