

It can be called high quality **agricultural motorized tricycle** Cargo **motorcycle** with three wheels and widely used in sector - transport, agriculture, construction and etc for loading/unloading goods from one place to another place.

Car Size	Capacity	Motor	Tyre Size	Speed
1300mm x 900mm	300kg	800w, Battery 60-20	Front Wheel 300-12, Rear Wheel 300-12	30-45km/h
		800w, Battery 60-32		
		800w, Battery 60-45		
1500mm x 1000mm		1200w, Battery 60-20	Front Wheel 300-12, Rear Wheel 400-12	
		1200w, Battery 60-32		
		1500w, Battery 60-45		
1800mm x 1000mm		1200w, Battery 60-20		
		1200w, Battery 60-32		
		1500w, Battery 60-45		
1800mm x 1100mm	1200w, Battery 60-20			

Intelligent brushless controller with high power supply and multi-strip of heat dissipation aluminium strip

New high-definition LCD display screen with clear and bright

Two groups of strengthen, strong and durable steel plate for shock absorption.

With six LED big bulbs to bring the brightness at the night.

Stable and durable hydraulic spring shock absorption

Black King Kong hub with quality assurance & scratch resistant

Motor with new magnetic steel design, optimize copper wire winding mode and density with improvement performance.
