

Stacking Racks are durable, portable, collapsible, shippable, low-cost stacking racks that reduce costly product damage associated with bulk stacking, offers better space utilization, product identification and easier handling of products.

The portable stack rack is preferred to common pallet rack for many applications due to its flexibility. It can be bulk stored with no aisles to save space on ono perishable items or condensed down and moved to a corner when not in use for seasonal items.

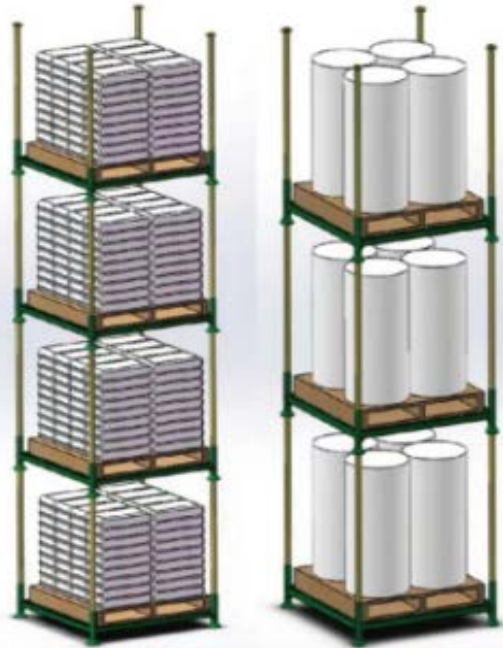

Fully Welded Type

Plug-in Type

The style nest-able storage racks can safely stack up to 4 high. Bulk stack safely while preventing product damage. Stack racks have high quality powder coating paint finish. Store difficult-to-handle items. Know down or nest when empty. Attachable sides, posts, or end frames.
