

Automatic Pallet Stretch Wrapping Machine

Automatic Pallet Stretch Wrapping Machine have the strength and precision necessary to create reliable protection and stability with every load. Employees can program the machine to create the correct containment force with each load. These programmable settings make the turntable stretch wrapper versatile enough to securely handle multiple kinds of loads and pallets. It also a great way to improve efficiency, consistency, and productivity in your packaging workflow.

Stretch film machine technical parameters :	
Product load	≤1000kg / 2000Kg
Turntable diameter	1500mm / 1650mm / 1800mm / 2000mm / 2200mm / 2400mm
Packing height	2000mm / 2300mm / 2500mm / 2800mm / 3000mm
Turntable height from the ground	80mm
Turntable speed	0-13 rpm
Machine power	1.5kw
Suitable for stretch film	width 50 cm, Thickness :15-35U
Machine weight	>700kg
Power supply	AC 240V or AC 415V / 50HZ
Maximum packing size	depends Turntable & Packing Height
