SEACREWSADER 275N TWIN CHAMBER

The Seacrewsader 275N Twin is designed to meet the SOLAS 2010 regulations according to MSC 81(70) as amended by MSC 200(80) and MSC 207(81). The Seacrewsader outperforms the new requirements, providing increased performance in the most demanding environments. Improved body angle, mouth freeboard and face plane angles make the Seacrewsader even safer at sea. Together with the improved rotating times, the new unique inflation chamber is fitted with twin firing mechanisms, providing unrivalled comfort as well as support.

The Seacrewsader is both easy to don and comfortable. With a new more compact cover, this universal adult size lifejacket is suitable for persons from a minimum weight of 43kg and will fit a chest size of up to 1750mm. The Seacrewsader is designed for extreme working environments and is also suitable for abandonment purposes. The high buoyancy level provides added protection when heavy work gear and clothing is worn. Each chamber is fitted with a 60g CO₂ cylinder and 3.5 psi relief valve ensuring full buoyancy is achieved during single or double chamber inflation.

The cover is available as standard in durable PU coated polyester, it is also available with a wipe clean or fire resistant cover. Supplied with UML MK5i standard automatic firing mechanism only and dual crotch straps fitted as standard.

FEATURES

- Twin chamber 275N MSC 200 (80)/ SOLAS approved lifejacket
- Suitable for use with most immersion and abandonment suits, subject to compatibility testing.
- Uses 2 x 60g cylinders on symmetrical inflation chambers

OPTIONAL EXTRAS

- Built in spray hood
- Lifejacket light (CSL)
- McMurdo S20 Smartfind

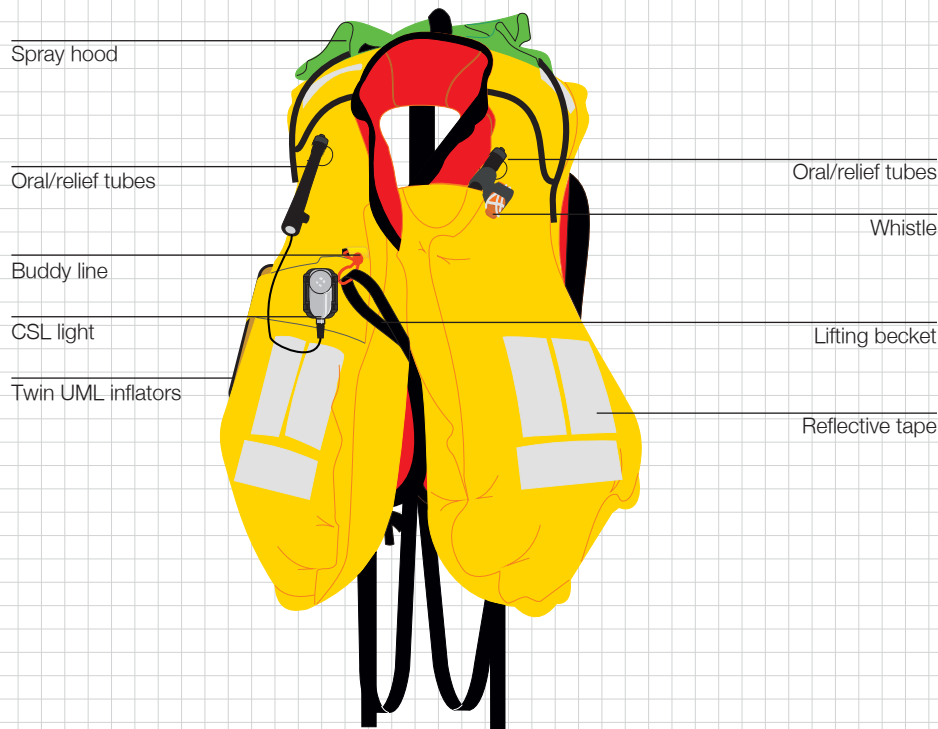

INFLATED

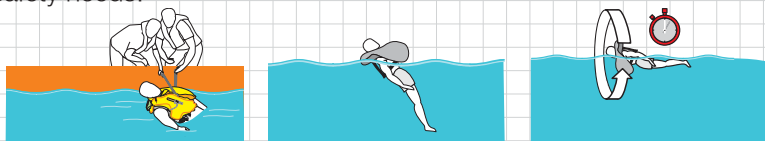

Inside the lifejacket the Seacrewsader 275N Twin offers;

- A turn speed of less than two seconds and unrivalled freeboard of an average of 40 percent* more than the standard requirement
- Easy integration with a PLB or AIS system. Coupled with a SOLAS approved light, whistle and reflective tape ensures you are located quickly
- An accessible lifting point is incorporated on the front of the Seacrewsader 275N Twin for ease of recovery
- Exceptional chin support helps to ensure airways are kept clear when in the water and protects from water funneling

*Results and times relate to average from type testing during approval.

The Crewsaver industrial and commercial range has been developed over many years using only the most advanced fabrics and manufacturing processes. Continuous stringent research and development within the industry has seen Crewsaver products in use worldwide in a diverse range of commercial sectors and institutions. Designed to perform in the most arduous environments, Crewsaver has developed a range that suits all your safety needs.

Due to crew saver's policy of continual improvement, we reserve the right to amend specifications where necessary without notice. Information correct at time of printing.
