教育理念

Education Principles

4至6岁是孩童教育与发展的关键阶段。幼儿教育应以促进幼儿的全面和均衡发展为原则。

培育幼儿的学习兴趣，提高自信和自理能力，并以生活化游戏和探索，贴近幼儿的日常经验，为幼儿提供综合而完整的学习体验，才有利于品格和全人发展。

The goal of early childhood education is to support children's holistic and balanced development.

We believe that nurturing children's interest in learning, improving their self-confidence and self-care skills, and providing them with integrated and holistic learning experiences through life-like play and exploration close to their daily experiences is the best way to cultivate good character and holistic development.
