10 Stability and Reactivity

Conditions to avoid	 Stable under the recommended storage conditions. Cfr. Section 7 "Storage". Bacterial degradation can occur if the Product is stored for an unuasually long period or is stored under unsuitable conditions. N/D N/D
Materials to avoid Hazardous decomposition products	
11 Toxicological Information	
On product	 Low toxicity is indicated by available data. Under normal industrial conditions, there is no indication that the Product can be considered as a health risk. Skin contact should be avoided to prevent possible long-term or short-term sensitation.
12 Ecological Information	
Ecotoxicity	: The Product is soluble with water and as such could cover considerable distances if spilled into waterways. Even a small spillage will whiten the appearance of water. Water for sewage treatment, that has been contaminated. with small quantities of the Product, will not affect the biomass. High
	concentrations may be harmful to fish and micro organisms.
Mobility	: Not established.
Persistence and degradability	: There is only a slow environmental degradation of the Product.
Bioaccumulative potential	: There is seemingly no tendency for bioaccumulation.
Other adverse effects	: Unknown.

13 Disposal Considerations

- The following advice only applies to the product as supplied.

- Combination with other materials may well indicate another route of disposal. If in doubt. Contact local TLC-KOYA CHEMICALS MANYFACTURING SDN BHD or local authorities.
