P-100 BATTERY WATER	Effective Date: 17-6-2014

Description:

P-100 Battery Water is the most up-dated and improved of producing Battery Water are using Ion Exchange Resin. The cat ion resin converts ion sable dissolvent solids in the water to equivalent acids. Which are immediately absorbed by the iron exchange resin. The intimate mixing of these high quality resins produce water of an exceptional purity. P-100 Battery Water is a high quality deionizer water.

Analysis By Chemicals Laboratory

Chlorine (C1) : Nil
Iron (Fe) : Nil
Silica (So2) : Nil
Sulphate (So4) : Nil
Conductivity : 2/ms = 1 ppm

Physical Properties

Appearance : Clear water
Colour : Colourless
PH Value : 5.5+/-0.5

Packing & Storage

1000ml & 20Ltrs

Store product in original container & keep container tightly closed, clean & dry.

Note

All recommendations for use of our products, whether given by us in writing, orally, or to be implied from the results of tests carried out by us, are based on the current state of our knowledge at the time such recommendations are made. As additional information is learned, these recommendations may be updated. They may also be impacted by circumstances outside our control. Notwithstanding any such recommendations, the user shall remain responsible for satisfying himself that the product as supplied by us are suitable or his intended process or purpose. Since we cannot control the application, use or processing of the products, we cannot responsibility therefore. The user shall ensure that the intended use of the products will not infringe any third party's intellectual property rights.
