

Span 300/400 Stairway

ACCESS TOWER SYSTEM

ZIP-UP

QUALITY & STRENGTH YOU CAN TRUST

Key Features

1. Rib-Grip-cold formed joints

The cold-formed Rib-Grip joining process is a key feature of the Instant tower system and provides three times the strength and durability of traditional welded joints. 10 year no question warranty!

2. Large Trapezoid Platforms

The lightweight web-less platform which is larger than standard trapezoid platforms provides additional head clearance while allowing the user and ease of access to the working level.

3. Single Steps

Bottom unit has a single brace unit to provide increased stability while ascending the lower section of the stairway.

4. Detachable Handrails

Easy to attach handrails possible for both inside and outside the Stairway.

5. Complete Top Level

The excellent end trapezoid platform provides a large working area.

The Instant Stairway tower is a versatile unit which can easily convert both a standard Span 300 and a Span 400 mobile access tower into a stairway tower. It provides safe landings every 2 metres. Stairway steps are 145mm deep, with a clear width of 450mm making it easy to carry tools. The step rise is 220mm and the angle of inclination is 5:1 degrees.

No special guarding is required - uses standard guardrails, bracing frames and toeboards.

Instant Span Towers features the unique high strength Rib-Grip joining system, guaranteed for 10 years.

All standard components have an extended 10 year warranty (on all EU manufactured parts only).

Compliant with EN1004 and Work at Height Directives, Load Class 3.

A free stairway tower can be built using 11 additional components (everything else is standard)
