DEA[®]

Automation for gates, doors and barriers

LOOK

THE HANDY CHOICE

Electromechanical linear ram
for swing gates

- Electromechanical automation, 24V d.c.
- Stroke 320 mm, for leafs up to 3,5 or 4,5 m long.
- Simple and safe manual unlocking device by special key.
- Internal electrical terminals, to make easier and faster the wiring of motor.
- Rear fastening plate with several holes, for an easier fixing.

LOOK is the new telescopic electromechanical ram for leafs up to 3,5 m or 4,5 m long. Reliability, strength and functionality, combined with a modern look, make this automation a practical and safe choice for various swing gate types.

Adjustable supports for LOOK operators.

TECHNICAL INFORMATION

Model	371
Single phase power supply (50Hz)	230 V a.c.
Motor power supply (V)	24 V d.c.
Capacity (W)	60
Built-in capacitor (µF)	-
Duty cycle	40%
Max thrust (N)	1000
Speed (mm)	320
Rod exit speed (cm/sec)	1,75
Weight with packing (Kg)	9
Working limit temperature (°C)	-20 ÷ 40
Protection degree	IP 24

DEALER STAMP

ISO 9001 certified company
Certificate n. 50 100 5350
