

pH/Conductivity/DO

VePure Portable Meter

pH / Conductivity / Dissolved Oxygen Portable Meter

EIT Portable meter is a microprocessor-based meter and comes with a large LCD display, which can display measured values and temperature values simultaneously.

Key features

- Microprocessor based portable meter.
- Easy configuration with functional buttons for setup and calibration.
- Automatic temperature compensation.
- Data storage, 99 groups.
- Self-diagnose information, automatic power-off and low voltage indicator.

Specification

Model	PHP-100	ECP-100	DOP-100
Measuring Range	pH: 0-14 pH mV: -1999-1999 mV Temp: -5 -105 °C	Cond:0-199.9 mS/cm Res: 0 -100 MΩ.cm TDS:0.1 -1000 ppm Salinity:0 - 80.0 ppt Temp: -5 - 105 °C	DO: 0 - 50.0 mg/l 0 – 500 % Temp: 0 – 60 °C Atmosphere: 300—1100 hPa
Resolution	pH: 0.01pH mV: 1mV Temp: 0.1°C	Cond / Res/ TDS / Salinity: Automatic Range Temp: 0.1°C	DO: 0.01 mg/l or 0.1 mg/l 0.1 % or 1 % Temp: 0.1 °C Atmosphere: 1 hPa
Accuracy	pH: ±0.01 pH mV: ±1 mV Temp: ±0.3°C	Cond: ±0.5 % FS Temp: ±0.3 °C	DO: ±0.5 % FS Temp: ±0.2 °C Atmosphere: ±5 hPa
Calibration	Max. 3 points (pH 4, 7, 10)	1 point with 9 pre-set standards (Europe and America, China, Japan)	Max. 2 points, (water vapor saturated air/zero oxygen solution)
Data storage	Calibration data 99 measured data for pH, mV each	Calibration data 99 measured data	
Sensor Cable	Standard length of 1 meter (other length can be specific based on sensor limit)		
Power supply	DC6V/20mA; 4 x AA/LR6 1.5 V or NiMH 1.2 V		
Size / Weight	230×100×35(mm)/0.4kg
