

El Rollo Water Park, Mexico

The El Rollo Water Park, the largest water park in Latin America, has **ScaleBlaster** and **Mineral Pure** equipment on its swimming pools, saving them a ton of money in chlorine expenses.

The park, located in the "Water Park Capital of the World", Tlaquittenango, Morelos, draws tens of thousands of visitors on weekends from nearby Mexico City and elsewhere. It is the tenth largest water park in the world.

Letter written by
Mario H. Medina Jacobo,
Director of Operations,

Morelos, Mexico.

English Translation

I strongly recommend the ionization system and ScaleBlaster. I compliment the company Clearwater Enviro Technologies. This product has given great results after installation by removing all calcium deposits and lowering chlorine use.
