

DIGIMATIC SAND EQUIVALENT SHAKER

Standard: EN 933-8, ASTM D2419, AASHTO T176, NF XP18-598, UNE 83131, UNI 8520-15, CNR N.27

Assessment of Fineness

The digimatic sand equivalent shaker features consist of digimatic timer (can be set at required time) to increase accuracy and ease of operation compared to a spring-type timer. The unit provides a consistent and repeatable oscillation, eliminating variations from one operator to the next.

Technical Specifications :

Model Number	NL 1001 X / 003S
Dimension (mm)	750 (L) x 445 (W) x 300 (H)
Speed Of Strokes	175 - 180 strokes / min
Approx. Weight	29 kg
Power	220 VAC, 50 / 60 Hz, 0.8 A, 1 ph, 128 W

Optional Accessories :

Model Number	Parts Description
NL 1000 X / 002	Sand Equivalent Test Apparatus

Timer

NL 1000 X / 002
