Food grade and biodegradable degreaser / cleaner

Foodmax Clean M is a foodgrade (NSF H1) and biodegradable degreaser leaving no residues after evaporation. Foodmax Clean M has temporary penetrating and lubrication properties. Often used replacing products like acetone, white spirit, toluene and trichloroethylene. Foodmax Clean M easily removes oil, grease, tar, resin, glue residues paint and other contaminants.

Foodmax Clean M can be used for cleaning of bearings, gears, hinges, slides, conveyor belts, parts, chains, etc.

Foodmax Clean M is readily biodegradable, cleans, degreases and evaporates quickly, very low hazard to user, has very low odor, leaves no residue behind and is non-corrosive.

e 400ml

Typical Performance Data

Typical	Value
Density @ 20°C, g/ml	0,66
NSF H1 approval	165392
Kosher approval	Yes
Halal approval	Yes
