Foodgrade Silicone Fluid

This product is a silicone-based fluid, anti-adherent and lubricating incorporating high temperature resistance. NSF and Kosher approved for the use in food processing equipment where incidental contact with food may occur. Excellent as lubricating product for packaging transport lines and for low load applications. Also suitable as anti-adherent for any type of equipment, demolding of all type of plastics and rubbers and surface polisher. The product is suitable to use in the food, beverage, pharmaceutical and cosmetics industries.

Foodmax Silicon is specially developed to lubricate applications which suffer from high temperatures and where water and other contaminants are found. Working temperature range between -60 and 200°C.

e 400ml

Typical Performance Data

Typical	Value
Appearance	Colourless
Base oil nature	Silicone oil
Viscosity @ 25 °C, cSt	250-400
