# Home Series

The Home Safe range offers a basic protection against fire and a wide range of sophisticated tools and techniques of attack while blending into your home without compromising your safety needs. Protect your valuables in these while occupying minimal space in your home.

- Body** : Made of high density proofing material encased in steel to resist attacks such as fire, drilling, oxyacetylene or mechanical tools attack.
- Door** : The handle controls the one way movable bolts that keeps the door firmly shut and locked. Behind the hinges, a 75mm thick vertical interlocking rebate is integrated to withstand prying attack.  
The interior of the door is further armoured with high density proofing material while securing the lockcase embedded in the door structure.
- Locking** : Standard locking system with three wheel combination lock, capable of providing 1,000,000 combinations plus seven lever keylocks. Deadlock device system is incorporated to jam on the boltwork mechanism if forcible attacks are made on the door and locks.
