Application

All surfaces must be clean, sound, and free from any laitance, oil, grease, and any contaminants.

Mix weber set easy bond 99 with the required amount of clean water or latex admixture (webermix starbond 99).

Spread weber set easy bond 99 with a suitable notched trowel. Spread $\leq 1 \text{ m}^2$ at a time to avoid skin-over.

Fix tiles onto the adhesive bed, followed by a slight twisting action to secure contact. Touch the adhesive bed periodically to check for skin-over.
