## IS YOUR BACK AND WISDOM TEETH CLEAN?

Research has shown that back teeth is more likely to have **cavities** than the front as they are **not easily cleaned** or **reached** during brushing. Ordinary toothbrushes with bulky head and neck are not able to reach and effectively clean back and wisdom teeth.

## SYSTEMA SUPER THIN

Systema 0.02mm Super Thin is scientifically designed by Lion Japan R&D team, to protect your **back and wisdom teeth** from decay and gum problems as it reaches deeper around the back teeth areas to **remove plaque 7x better**.

- **40% thinner head** than ordinary toothbrush

- **5mm Deeper reach** to the **wisdom teeth** area to **remove plaque 7X better!**

DEEPER REACH TO **REMOVE 7X\*\* MORE PLAQUE**  
AT BACK AND WISDOM TEETH

\*vs ordinary Systema toothbrush. \*\*vs ordinary Systema toothbrush of regular brush head size.
