

Q&A on implants

Q. Can anyone have implants?

A. For adults with mature teeth, anyone can have this surgical procedure, regardless of age. However, if you are under following conditions, surgery procedure can be taken a little more time.

- Adolescent younger than 18 years old
- Severe gum disease
- High blood pressure, diabetes
- Critical disease, such as cancer
- Serious osteoporosis

Q. Are implant painful?

A. Successful implant surgery can be done with simple anesthesia to reduce pain. Depending on the patient nerve sensitivity is different, and pain levels vary widely. In most cases, implant placement can be done with simple superficial anesthesia.

Q. How long does an implant last?

A. With proper care and regular check-ups, after the osseointegration is made, an implant can last as long as your healthy natural teeth. Proper maintenance should be part of having an implant last as long as your natural teeth.

MEGA GEN
For Lifetime Smiles

Implants can be the 3rd generation of teeth in your life!

Primary teeth, permanent teeth and then the next could be implants.

Implant treatment is a way to make you live with function just like your own natural teeth.

It's not going to be small investment for your fresh life with new implants, so make a smart choice!

For Lifetime Smiles MegaGen Implant

Why do you need implants?

Keeps the function of natural teeth intact

1. You can keep the masticatory force as it was.
2. It is as comfortable as the original teeth
3. You can be free from the discomfort of conventional dentures

Keep remaining teeth healthy

1. Protect neighboring teeth
2. Prevent further gum damage and loss
3. Maintain a healthy jaw

Enjoy long term aesthetics

1. Excellent aesthetics
2. Semi-permanent lifespan
3. Very low possibility of new cavity creation

Treatment steps

✓ Implant treatment period

- Upper jaw takes an average of four months
- Lower jaw takes an average of three months
- If bone graft is required, the treatment period may be extended for another two to six months

✓ Clinical Case
