

neoair mini

Releasing negative ions

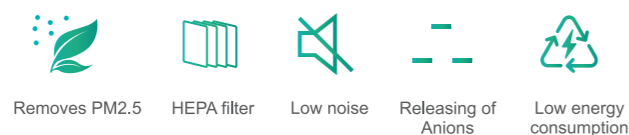

Negative ions are expelled into the car where they are attached to positively charged virus, bacteria, dust, pollen, cigarette smoke, odour, pet dander, chemical and others to form larger particles. These particles will then be efficiently eliminated by our HEPA filter.

360° HEPA Filter

360° High-Efficient HEPA filter removes 99.99%, 0.01 micron of air pollutants in the car. The 360° filter is designed for optimum air flow. It can absorb dangerous chemicals, odours and volatile organic compounds (VOCs).

Car Air Purifier | Product Specification

Rated Voltage	DC10-15V, 300-500mA	App Area	Car air purifier
Filter	HEPA	N.W	250g
Anion Concentration	5 million/cm ³	CADR	8m ³ /h
Product size	74x74x170mm		

neoair MINI CAR AIR PURIFIER

enjoy a clean & healthy driving experience

Removes 99.99%,
0.01 micron of air pollutants

NEO AIR

natural air, natural beauty.....

air purifier
OFFICE | HOME | CAR

NeoAir removes 99.99% ,
0.01 micron of air pollutants

NeoAir 55

NeoAir 25

NeoAir mini

true HEPA filter

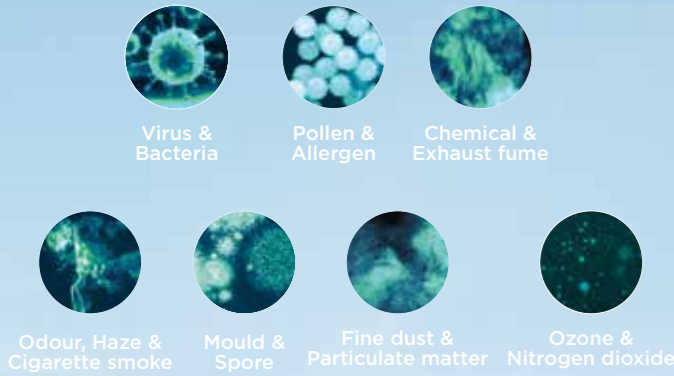

Removes harmful particles and allergens with 7 stages of purifying.

neoair 55

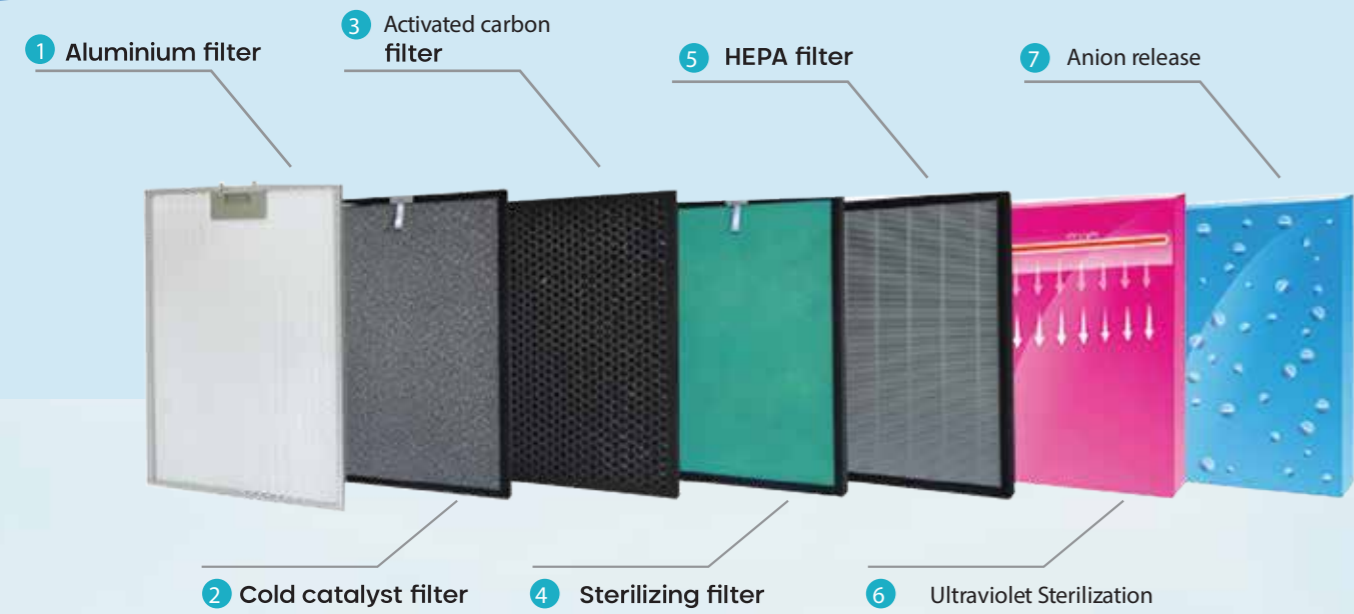

air purifier

True HEPA filter can remove

7 STAGES AIR PURIFICATION SYSTEM + 2 extra features Humidifier & PM 2.5 reader

1. Aluminium filter

Filter dust particles more than 5 micron

2. Cold catalyst filter

Absorbing and decomposing formaldehyde, benzene and TVOC

3. Activated carbon filter

Rapidly absorbing odor, decomposing formaldehyde, benzene, ammonia, and cigarette smoke

5. HEPA Filter

Eliminating all particulate matters (PM) such as viruses, bacteria, dust, smoke and allergens

6. Ultraviolet sterilization

Eliminating all particulate matters (PM) such as viruses, bacteria, dust, smoke and allergens

7. Anion release

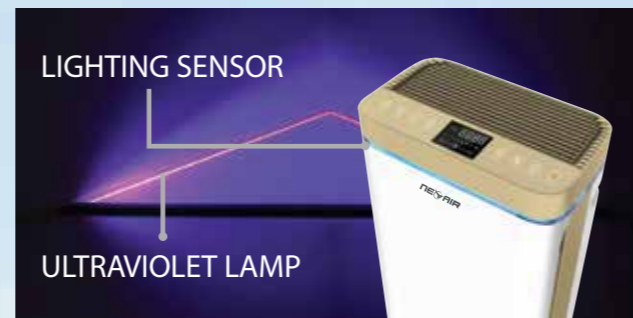

Improving air quality, multiple health care functions

PM 2.5 READER

PM 2.5 READER

The PM 2.5 reader on the display helps you to track PM 2.5 pollution level indoor. NeoAir's purification system sense and capture 99.99% of ultrafine particles and pollutants then projects clean air throughout your whole room. When the PM 2.5 reader projects figure less than 12, your air quality is considered clean.

LIGHTING SENSOR

ULTRAVIOLET LAMP

ULTRAVIOLET LAMP

The light weight of 365nm wavelength destroys the cell-tissue and cleaves the molecular bonds, odorous gas, bacteria and viruses. The contaminant molecules in the free state are oxidized with ozone into harmless small molecules. Natural bacteria kill rate at 99.99%.

LIGHTING SENSOR

The smart lighting sensor changes its colour based on the air quality. ● GOOD ● MODERATE ● UNHEALTHY ● POOR

neoair 55

air purifier

HUMIDIFIER

The humidifier increases the moisture in the air, thus increasing relative humidity and improving dry air conditions. Humidifiers can be particularly effective for treating dryness of the skin, nose, throat and lips.

HUMIDIFIER

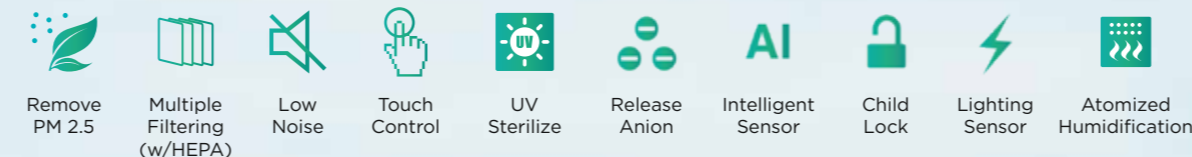

NEGATIVE IONS

Negative ions allow positively charged indoor dust, smoke, viruses and bacteria to accumulate. This is to ensure they lose their ability to float freely in the air. Then, those particles will immediately descend to purify the air and eliminating static electricity. At the same time, it can increase oxygen supply to the brain, promote blood circulation and metabolism and improve human immunity.

NEGATIVE IONS

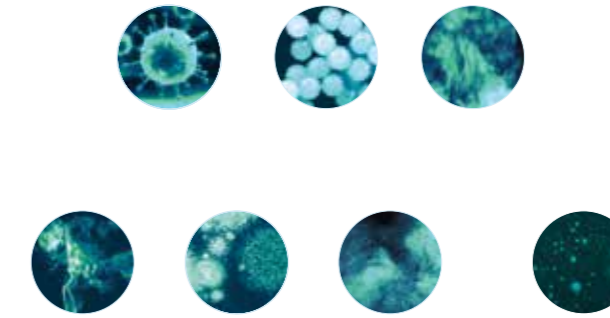

Features

NeoAir 55 | Product Specification

CADR	488m³/h	Motor	Brushless DC Motor
Rated Power	85W	Applicable Area	30 - 60sqm
N.W	11.3kg	Product Size	400x230x640mm
Protection Function	Power off once cover open + Child Lock		
Auto processing	Dust Sensor + Light Sensor + PM2.5 display + Filter change indicator		
Method of Cleaning	Pre-filter + Cold Catalyst Filter + Cellular - Activated Carbon Filter High Efficiency HEPA Filter + Sterilizing UV light + Anion		

neoair 25

3 STAGES of purification + PM 2.5 reader

PM 2.5 READER

The PM 2.5 reader on the display helps you to track PM 2.5 pollution level indoor. NeoAir's purification system sense and capture 99.99% of ultrafine particles and pollutants then projects clean air throughout your whole room. When the PM 2.5 reader projects figure less than 50, your air quality is considered-clean.

1. Primary filter

Filter large particles such as dust, hair, and animal dander

2. Activated carbon filter

Rapidly absorbing odor, decomposing formaldehyde, benzene, ammonia, and cigarette smoke

3. High efficiency HEPA Filter

Eliminating all particulate matters (PM) such as viruses, bacteria, dust, smoke and allergens

NeoAir 25 | Product Specification

CADR	200m³/h	Motor	AC Motor
Rated Power	43W	Applicable Area	20 - 25sqm
N.W	5kg	Product Size	325x172x510mm
Control operation	Keyboard + Remote	Noise (Low Speed)	20.4 dB(A)
Method of cleaning	Pre-filter: Activated carbon filter + High Grade HEPA filter
