

Performance[®] TFD

SEMI DRY LUBRICANT CONTAINING PTFE

Product Code
593493

Industrial Spraycans

LUBRICANT

Semi Dry Lubricant Containing PTFE

This product is a waxy PTFE based lubricant. Performance TFD is designed for repetitive movement applications. Moving parts last longer, work harder and need less maintenance when coated with Performance TFD at a wide temperature range of -20 to 120°C and incidental peak temperatures of 150°C.

Performance TFD is suitable for use in coin mechanisms, door and window guides/runners, wood working tables, lock parts, saws and planes, rack slides, wood furniture drawers, wood table slides, packaging equipment.

Aerosol packed for convenience, clean easy application, good adhesion to most substrates, low friction, durable abrasion resistant surface, thin film, room temperature cure, translucent coating, life long lubrication in many applications.

e 400ml

Typical Performance Data

Typical	Value
Appearance	Translucent
Colour	White
Lubricant	PTFE

How to use:

Substrates to be coated should be clean and dry, free from contamination and residues such as dirt, grease or powder before applying Performance TFD. Light abrasion followed by a solvent wipe will improve adhesion.

All performance data on this Technical Data Sheet are indicative only and can vary during production.
