

## Vacumax HT 22

## Synthetic vacuum pump fluid

## Description

Vacumax HT synthetic vacuum pump fluids are formulated with group III synthetic base stocks and special synergistic additives specifically for industrial plant air compressors and vacuum pump fluids.

## Properties

- Good oxidation stability and long life at very high temperatures
- High viscosity index or better compressor protection at elevated temperatures
- High flash \& auto-ignition points for added safety
- Low volatility and carry over into filters and storage tanks
- High film strength and anti wear properties
- Good coolant properties to help dissipate compressor and vacuum pump heat
- Long life fluid allows for extended oil drains
- Good carbon and varnish control to help reduce valve deposits
- Excellent rust \& corrosion control

## Performance level

DIN 51506 VBL, VCL, VDL. DP 6521 (DAA, DAB, DAH, DAG).
