Foodgrade Chain And Slide Lubricant Containing PTFE

This product is a very adhesive white food grade lubricant in a spray package. The product contains a food grade synthetic fluid with fortified with PTFE. Foodmax Multi is not recommended for use at low temperatures.

Lubrication of chains, conveyors, slides, joints, mould slides, small bearings or any other application which requires a food grade high performance lubricant. Also suitable for textile, paper and graphic arts, plastic, tobacco and elevator industry. Provides excellent performance in motorcycle chain lubrication and in high speed kart transmission chains. We do not recommend using Foodmax Multi below 0 °C although it has a technical lower temperature limit of -35 °C. In sub-zero conditions the product might become too viscous to provide good lubrication.

Efficient lubrication of the major points (bolts, bushings etc), external protection against rust and oxidation, internal protection against wear and friction, extremely water resistant, very high temperatures properties, keeps chains free of dust and dirt, avoids seizing and wear, economical solution, improves chain life, provides clean operation, Kosher, Halal and NSF (139275) approved.

e 400ml

Typical Performance Data

Typical	Value
Appearance	White viscous liquid
Density @ 20 °C, cSt	0.95
Viscosity @ 20 °C, cSt	9200
